## NOTES TO FINANCIAL STATEMENTS

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

American Manufacturers Mutual Insurance Company (the “Company”) is a mutual property and casualty insurance company domiciled in the State of Illinois. The Company shares common management and directors with Lumbermens Mutual Casualty Company (“LMC”), an affiliated mutual insurance company, and cedes 100% of its premiums, losses, loss adjustment expense (“LAE”), and underwriting expenses to LMC. (See Notes 10, 23, and 26.) LMC is the lead company of a group of insurers and affiliates, now in run-off status, which operate under the trade name of Lumbermens Mutual Group (“LMG”), formerly known as the Kemper Insurance Companies.

Previously under the administrative supervision of the Illinois Department of Insurance (the “Department”), the Company and LMG had been operating under a run-off plan filed with the Department in 2004. The Company was also subject to confidential corrective orders (the “Corrective Orders”) issued by the Department since early 2003 (see Note 14) when the Company went into run-off status. In compliance with applicable law and Corrective Orders, respectively, the Company has not paid any dividends to policyholders (see Note 1.C.) or interest on surplus notes (see Note 13) in 2012 and 2011.

On July 2, 2012 an Agreed Order of Rehabilitation was entered against the Company and LMC, with the consent of their respective Boards of Directors by the Circuit Court of Cook County, Illinois. On August 16, 2012 an Agreed Order of Rehabilitation was entered against American Motorists Insurance Company (“AMICO”) a wholly-owned subsidiary of the Company. AMICO is a stock property and casualty insurance company domiciled in the State of Illinois. AMICO also cedes 100% of their premiums, losses, LAE, and underwriting expenses to LMC. Under Illinois law, the Director of the Department (the “Director”) is appointed statutory Receiver of the companies and is vested with title to the companies’ property, assets, rights of actions or lawsuits, book, records and premises.

The Illinois Insurance Code provides that the Receiver may appoint a Special Deputy and other employees as his agents to assist in the administration of the receivership. Paul A. Miller, Special Deputy, and the Office of the Special Deputy Receiver are assisting the Director in the administration of the receiverships.

The Agreed Order of Rehabilitation terminates the previously issued Corrective Orders (including accounting allowances prescribed under Corrective Orders and the annually updated run-off plan.

#### A. Accounting Practices

The accompanying statutory financial statements of the Company have been prepared in conformity with the National Association of Insurance Commissioners (the “NAIC”) *Accounting Practices and Procedures Manual* (the “Manual”).

#### B. Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with statutory accounting principles (“SAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the financial statement date and the reported amounts of revenues and expenses during the reporting period. SAP also requires disclosure of contingent assets and liabilities at the financial statement date. Actual results could differ from those estimates.

#### C. Accounting Policy

The Company’s significant accounting policies are as follows:

Bonds, cash equivalents, and short-term investments are carried at amortized cost.

The amortized cost of bonds is adjusted for amortization of premiums and accretion of discounts using a level effective yield method to maturity, or in the case of loan-backed securities, over the estimated life of the security. Such amortization is included in investment income. Amortization of the discount or premium from loan-backed securities is recognized retrospectively based on the estimated timing and amount of prepayments of the underlying assets and is adjusted to reflect differences which arise between the prepayments originally anticipated and the actual prepayments received and currently anticipated. To the extent the estimated lives of such securities change as a result of changes in prepayment rates, the adjustment is also included in investment income.

The Company defines cash and cash equivalents as cash in banks or short-term, highly liquid investments that are both readily convertible to cash and have original maturities of three months or less. The Company considers all other highly liquid investments with an original maturity of one year or less and money market fund investments to be short-term investments.

Realized gains or losses, including on the sale of investments, the recognition of other-than-temporary declines in value, or in situations where the Company has made a decision to sell a security at an amount below the security’s carrying value, are determined on the basis of specific identification of the acquisition lots of the respective investment sold or written down and are

NOTES TO FINANCIAL STATEMENTS

reflected as a component of income. Unrealized gains or losses on revaluation of investments are credited or charged directly to surplus.

The Company does not accrue interest income on fixed maturities deemed to be impaired on an other-than-temporary basis when it determines that the likelihood of collection of interest is doubtful.

Premiums are generally earned on a daily pro rata basis over the term of the policies and are net of reinsurance. Unearned premiums are stated after deduction for related reinsurance amounts. Policy acquisition costs such as commissions, premium taxes, and other underwriting and agency expenses are charged to income as incurred.

Assets included in the statutory statements of admitted assets, liabilities, and surplus are at admitted asset value. Nonadmitted assets, consisting of prepaid expenses, are excluded through a charge against surplus.

Bonds in an unrealized loss position are regularly reviewed for other-than-temporary declines in value. Factors considered in determining whether a decline is other-than-temporary include the length of time a bond has been in an unrealized loss position and the reasons for the decline in value. Assessments include judgments about an obligor’s or guarantor’s current and projected financial position, an issuer’s current and projected ability to service and repay its debt obligations, the existence of, and realizable value for, any collateral backing the obligations, and the macro-economic and micro-economic outlooks for specific industries and issuers. Estimating the future cash flows of loan-backed securities also involves assumptions regarding the underlying collateral such as prepayment rates, default and recovery rates, existence of subordinated classes capable of absorbing losses, and third-party servicing abilities.

In performing its other-than-temporary impairment reviews, the Company, in consultation with its engaged portfolio manager, considers the relevant facts and circumstances relating to each investment and exercises judgment in determining whether a bond is other-than-temporarily impaired. Among the factors considered are whether the decline in fair value results from fundamental credit problems of the issuer, or is interest related, and the likelihood of recovering the amortized cost based on the current and short-term prospects of the issuer. Unrealized losses are determined to be temporary where such losses are primarily the result of market conditions, such as increasing interest rates, unusual market volatility, or industry-related events, and where the Company also believes it is probable that the Company will be able to collect all amounts when due in accordance with the contractual terms of the investment and, furthermore, has the intent and ability to hold the investment until the market recovers or maturity and, therefore, does not have the intent to sell the investment.

The risks inherent in reviewing the impairment of any investment include the risk that market results may differ from expectations; facts and circumstances may change in the future and differ

from estimates and assumptions; or the Company may later decide to sell the security and realize a loss as a result of changes in the specific facts and circumstances surrounding a bond, or the outlook for its industry sector or the economy.

As of December 31, 2012 and 2011, the Company did not have any gross unrealized losses.

Prepayment assumptions used for loan-backed securities are derived using an external securities information service and are consistent with the current interest rate and economic environment.

There were no income taxes incurred in the current and prior year that will be available for recoupment in the event of future net losses.

Tax returns for the years through 2008 are closed for Internal Revenue Service ("IRS") examination. The Company is not currently under examination by the IRS for any open tax years.

The Company's Federal income tax return is not consolidated with any other entity's tax return.

10. INFORMATION CONCERNING PARENT, SUBSIDIARIES, AFFILIATES AND OTHER RELATED PARTIES

The Company is a member of the LMG. As a mutual insurance company, the Company has no stockholders and no parent company. The Company and affiliates are disclosed in the organizational chart of Schedule Y. The Company has no investments in affiliates or subsidiaries. Affiliate

## NOTES TO FINANCIAL STATEMENTS

reinsurance relationships are disclosed in Schedule F and Note 23. Certain contingencies are set forth in Note 14.

The Company has no guarantees or undertakings for the benefit of an affiliate that would result in a material contingent exposure, other than cessions to LMC.

The Company's reinsurance recoverables from LMC, all unsecured, totaled approximately \$172.3 million at December 31, 2012 and \$140.4 million at December 31, 2011. (See Note 23.A.) Under the intercompany pooling agreement described in Note 26 pursuant to which the Company cedes 100% of its premiums, losses, LAE, and underwriting expenses to LMC, LMC provides virtually all facilities and administrative services to the Company. (See Note 12.)

As mentioned elsewhere in the notes, the Company is largely dependent on LMC's financial and regulatory status. If LMC does not or cannot meet its reinsurance obligations to the Company, the Company's liquidity and financial status would be significantly affected.

LMC and its affiliates, including the Company, jointly participate in a corporate insurance program, including D&O coverage. A LMC subsidiary, Specialty Surplus Insurance Company, extended a reinsurance agreement, effective December 31, 2010 for a three-year period ending December 31, 2013, facultatively reinsuring a corresponding three-year A-side management liability policy issued by an unaffiliated third party to LMC and the Company. At December 31, 2012 and 2011, respectively, the Company reported \$342 thousand and \$67 thousand due to LMC.

### 11. DEBT

None.

### 12. RETIREMENT PLANS, DEFERRED COMPENSATION, POST EMPLOYMENT BENEFITS AND COMPENSATED ABSENCES AND OTHER POSTRETIREMENT BENEFIT PLANS

The Company utilizes the employees of LMC. LMC incurs and pays all costs for employees, including benefit plans, under the terms of the intercompany pooling agreement described in Notes 10 and 26.

### 13. CAPITAL AND SURPLUS, DIVIDEND RESTRICTIONS AND QUASI-REORGANIZATIONS

None.

### 14. CONTINGENCIES

#### A. Contingent Commitments

##### *Securities on Deposit/Encumbered Assets*

Of the Company's \$10.3 million of cash and invested assets at December 31, 2012, \$7.7 million are encumbered. The Company's encumbered assets are on deposit with states, historically required for the Company to meet minimum state licensing requirements.

The Company is contingently liable for \$48.9 million related to structured settlement annuities. (See Note 27.)

#### B. Guaranty Fund and Other Assessments

The Company is liable for guaranty fund assessments related to certain unaffiliated companies that have become insolvent during the years 2012 and prior. The Company is also contingently liable for any future guaranty fund assessments related to insolvencies of unaffiliated insurance companies for which the insurance industry has been unable to estimate the cost to cover losses to policyholders. No specific amount can be reasonably estimated for such insolvencies as of December 31, 2012. The Company cedes its entire liability for guaranty fund and other assessments to LMC.

#### C. Gain Contingencies

None.

#### D. Claims Related Extra Contractual Obligations and Bad Faith Losses Stemming from Lawsuits

The amounts paid by the Company for claims related to extra contractual obligation lawsuits and bad faith lawsuits during the reporting period are not considered material in relation to the financial condition of the Company.

#### E. Product Warranties

None.

#### F. All Other Contingencies

##### *Ratings*

## NOTES TO FINANCIAL STATEMENTS

In early 2005, at the request of LMC, A.M. Best ceased rating LMG, including the Company. As of December 31, 2004, A.M. Best had assigned the Company a D (poor) rating. In June and July 2003, respectively, Moody's Investor Services and Standard & Poors last downgraded the Company's financial strength ratings to Caa3 (very poor) and CCC (very weak), respectively, when, also at LMC's request, they ceased rating LMG.

The downgrades to below A- beginning in late 2002 effectively ended the Company's and its affiliates' ability to write most new commercial lines business or retain existing policyholders. By mid-2003, therefore, as a result of a combination of various business factors including the ratings downgrades and LMG's deteriorating statutory surplus, and in compliance with Corrective Orders issued by the Department to the Illinois-domiciled members of LMG, the Company substantially ceased underwriting activities other than as required by contract or law.

### ***Risk-Based Capital and Risk of Insolvency***

The NAIC utilizes a risk-based capital ("RBC") formula intended for regulatory monitoring of property-casualty insurers. Under RBC rules in Illinois, state regulators may mandate remedial action for inadequately capitalized companies. The focus of the capital rules is a risk-based formula that applies prescribed factors to various risk elements in an insurer's business and investments to develop a minimum capital requirement designed to be proportional to the amount of risk assumed by the insurer. For the last nine years, excluding the benefit of prescribed and permitted accounting practices, LMC's level of surplus had been at the "mandatory control level" under the RBC rules. At this level, the Department had substantial authority to exercise control over LMC and its affiliates. The Department is mandated to place a company at this level under its control, except where, as is the case with LMC, such company is a property and casualty insurance company that is no longer writing new business and is running off its existing business, in which case the Director has discretion to allow the continued run-off.

Having entered into voluntary run-off in the first half of 2003, LMG had been operating under guidance provided within certain agreed to Corrective Orders with the Department, pursuant to which LMG had ceased to write virtually all insurance business and is settling their liabilities under the administrative supervision of the Department. As required by the Department, the Company had been operating under a confidential RBC plan (the "run-off plan") filed by LMC and the other Illinois-domiciled members of LMG. The run-off plan was designed to help LMG meet their goal of resolving, to the maximum extent possible, all valid policyholder claims. LMG updated the run-off plan based on current information from time to time. Details of the plan are confidential pursuant to the state's RBC statute.

Risks and uncertainties involved in implementing the run-off plan included the needs to achieve significant policy buybacks and novations; to complete other surplus-enhancing transactions; to commute certain reinsurance agreements; to complete other liquidity-enhancing transactions; to hire and retain the staff and resources necessary to implement the plan; to further reduce expenses; and to consummate agreements with regulators and other third parties. Achieving the surplus and liquidity projections in the run-off plan required the consummation of agreements with insureds for policy buybacks and novations; the timely performance of payment and other contractual obligations owed to LMG by various third parties, including reinsurers as well as insureds and agents; agreements with regulators in various jurisdictions; and the absence of significant additional disputes not only with reinsurers but also with creditors, including insureds and certain states, which could involve judicial or other actions to seek either to force LMG to collateralize their unsecured obligations or to not timely release collateral back to LMG.

The Department closely monitored LMG's progress in achieving the objectives of the run-off plan. As had been the case for almost ten years, the Department retained the discretion at any time to seek to place LMG in a formal insolvency proceeding (conservatorship or receivership, rehabilitation or liquidation).

The Company had also entered into consent agreements with certain other states under which the Company agreed to cease writing business in those jurisdictions. The Company's Certificate of Authority has been suspended in the following states: Alaska, Idaho, Kentucky, Missouri, Nevada, North Dakota, Oklahoma, Oregon, Tennessee, Washington, West Virginia, and Wyoming.

The Company's RBC ratio, unlike LMC's, exceeds any regulatory action levels. Because of the Company's heavy reliance on reinsurance recoveries and operations support from LMC, however, the regulatory and financial status of LMC has had and will continue to have a significant impact on the Company's liquidity and operations. (See Note 23.A.)

## NOTES TO FINANCIAL STATEMENTS

Although the Company's operating cash flows (along with the portion of the investment portfolio that is held in cash and highly liquid securities) have historically met the liquidity requirements of the Company's operations, the Company is heavily dependent on its reinsurance with LMC to meet its current obligations and maintain its surplus. Thus, it is critical for the Company to be able to collect its reinsurance recoverables from LMC; however, Corrective Orders prohibited the transfer of assets from, or liabilities to, any affiliated parties without the prior approval of the Director.

### *Other*

Various lawsuits against the Company have arisen in the course of the Company's business. Contingent liabilities arising from other litigation, income tax, and other matters are not currently considered material in relation to established reserves, anticipated insurance and reinsurance recoverables, and the financial condition of the Company, but there can be no assurance that such matters will not become material due to future developments, including any changes with respect to the financial condition of the Company.

#### 20. FAIR VALUE MEASUREMENTS

Fair values are estimated at specific points in time, based on relevant market information and information about the financial instrument. These estimates do not reflect any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. Fair values are based on quoted market prices when available and appropriate. Otherwise fair values for financial instruments are generally determined using discounted cash flow models and assumptions that are based on judgments regarding current and future economic conditions and the risk characteristics of the investments. Although fair values are calculated using assumptions that management believes are appropriate, changes in assumptions could significantly affect the estimates and such estimates should be used with care.

Fair values are determined for existing on- and off-balance sheet financial instruments without attempting to estimate the value of anticipated future business and the value of assets and certain liabilities that are not considered financial instruments. Accordingly, the aggregate fair value presented does not represent the underlying value of the Company.

The following methods and assumptions were used by the Company in estimating the fair value of its financial instruments:

*Bonds:* Fair values for bonds are determined using quoted market prices from an orderly market at the reporting date for those or similar investments. If quoted market prices from an orderly market are not available, the fair value is determined using an income approach valuation technique (present value using the discount rate adjustment technique) that considers, among other things, interest rates, the issuer's credit spread, prepayments, performance of the underlying collateral for loan-backed securities and illiquidity by sector and maturity.

*Cash equivalents and short-term investments:* Fair values for money market funds are based on quoted market prices. Fair values for other instruments approximate amortized cost.

*Cash:* The statement value reported for cash approximates fair value.

NOTES TO FINANCIAL STATEMENTS

The statement values and fair values of the Company’s financial instruments at December 31, 2012 and 2011 were as follows:

		2012				2011		
		Statement value		Fair value		Statement value		Fair Value
		(In thousands)						
Financial instruments recorded as assets:								
Bonds	\$	6,513		6,717		9,537		9,870
Cash, cash equivalents, and short-term investments		3,807		3,807		545		545

The Company does not have any financial assets carried at fair value at December 31, 2012. If it did have financial assets carried at fair value, they would be classified, for disclosure purposes, based on a fair value hierarchy defined by SSAP No. 100, *Fair Value Measurements*. The hierarchy gives the highest ranking to fair values determined using unadjusted quoted prices in active markets for identical assets (Level 1) and the lowest ranking to fair values determined using methodologies and models with unobservable inputs (Level 3). An asset’s classification is determined based on the lowest level input that is significant to its fair value measurement. For example, a Level 3 fair value measurement may include inputs that are both observable (Levels 1 and 2) and unobservable (Level 3). The levels of the fair value hierarchy are as follows:

*Level 1* – Inputs are unadjusted quoted prices for identical assets in active markets accessible at the measurement date.

*Level 2* – Inputs include quoted prices for similar assets in active markets, quoted prices from those willing to trade in markets that are not active, or other inputs that are observable or can be corroborated by market data for the term of the instrument. Examples of other inputs include market interest rates, volatilities, spreads, yield curves, prepayment speeds and default rates.

*Level 3* – Includes unobservable inputs that are supported by little or no market activity and are significant to the fair value measurement. Unobservable inputs reflect the Company’s best estimate of what assumptions hypothetical market participants would use to determine a transaction price for the asset at the reporting date.

- G. **Subprime–Mortgage–Related Risk Exposure**

The Company defines its exposure to subprime–mortgage–related risk as being composed of all fixed income securities primarily backed by mortgage pools with the following characteristics calculated on a weighted average basis:

- First lien mortgages where borrowers have FICO scores less than 650
- First lien mortgages with loan–to–value ratios greater than 95%
- Second lien mortgages where borrowers have FICO scores less than 675
- Borrowers with less than conventional documentation of their income and/or net assets and FICO scores less than 650

At December 31, 2012, the Company did not have any subprime–mortgage–related risk exposure, and during 2012 it did not recognize any other–than–temporary impairment losses related to subprime mortgages.

22. EVENTS SUBSEQUENT

The Company performed an evaluation of subsequent events through February 28, 2013, the date the statutory financial statements were finalized, and determined there were no recognized or unrecognized subsequent events that would require an adjustment or additional disclosure in the statutory financial statements as of December 31, 2012.

23. REINSURANCE

- A. **Unsecured Reinsurance Recoverables**  
The Company cedes 100% of its premiums, losses, LAE, and underwriting expenses to LMC. All reinsurance recoverables from LMC are unsecured, and the Company remains primarily liable as the direct insurer on all risks reinsured by LMC if LMC is unable to pay such claims. During 2012 LMC was classified as an unauthorized reinsurer by the Department. LMC’s unauthorized reinsurer classification resulted in the Company incurring a Schedule F penalty of approximately \$172 million, the estimate of reinsurance recoverables from LMC. The Schedule F penalty is the primary driver of the significant change in the Company’s surplus during 2012.
- B. **Reinsurance Recoverable in Dispute**

**26. INTERCOMPANY POOLING ARRANGEMENTS**

The significant majority of the business written by members of LMG has historically been ceded to LMC through quota share reinsurance agreements with some LMC subsidiaries retaining a portion of the business written and through a quota share pooling agreement by and among LMC, the Company, and a wholly owned subsidiary of LMC, American Motorists Insurance Company ("AMICO"). Prior to 2003, of the insurance business directly written by LMC or ceded to LMC, including all business written by the Company and AMICO, LMC ceded (net of third-party, unaffiliated, reinsurance and excluding Canadian business) 15% to AMICO and 8% to the Company. (Third-party reinsurance has generally attached after cessions by affiliates to LMC, although some specific risks have been subject to facultative or other reinsurance before cession to LMC.) Effective January 1, 2003, the pooling agreement was amended to eliminate LMC's 15% cession to AMICO, and effective December 31, 2003, the pooling agreement was amended to eliminate LMC's 8% cession to the Company. The effect of both amendments was for LMC to retain all previously ceded risks, and the amendments were accompanied by transfers of assets of the Company and AMICO in order to satisfy the liabilities transferred to LMC by the pooling agreement amendments. As a result, at December 31, 2012 and 2011, the net reserves of the Company and AMICO are zero.

At the same time as the December 31, 2003 pooling agreement amendment, LMC assumed most of the Company's liabilities, agreed to perform for the Company all insurance policy-related obligations including handling and paying claims, and issued an LMC policy to each holder of a policy ever issued by the Company, including any policy no longer in force but excluding any personal lines policy that is cut-through reinsured by the unaffiliated Trinity Universal Insurance Company, a subsidiary of Unitrin, Inc. The additional LMC policy is substantively identical to the policy previously issued by the Company, although the LMC policy is non-participating and non-voting with respect to LMC's corporate governance. The additional LMC policy assures affected policyholders of the Company that their claims will be treated equally with the claims of LMC policyholders not only in the event of a managed run-off of LMC and the Company (see Note 14) but also in the event of any insolvency proceedings with respect to the two companies. The Company remains liable for its policy liabilities in the event LMC does not comply with all the terms of the affected policies. In 2008 with the approval of the Department, the Company and LMC agreed to clarify certain expense allocation arrangements of the 2003 agreements and pooling agreement amendment by basing the allocations on the relative surplus of the two companies for 2008 and future years. The allocated expenses, primarily consisting of joint board travel expenses, shared D&O insurance costs, annual audit fees, annual statement printing costs, and certain licensing costs, totaled \$0.6 million in 2012, with the Company's and LMC's respective shares being \$0.2 million and \$0.5 million. The 2008 agreement also made clear that consistent with their past practices, premium taxes remained the sole responsibility of LMC as the Company's 100% quota share reinsurer.

NOTES TO FINANCIAL STATEMENTS

27. STRUCTURED SETTLEMENTS

A. In limited circumstances to settle certain insurance claim liabilities prior to the Company entering run-off in early 2003, the Company from time to time since the late 1970s purchased from various life insurance companies structured settlement annuities naming the settling claimants as payees. In many of those settlements, the Company was named the owner of the annuity and is contingently liable to the claimant for the unpaid periodic payments in the event of the default or insolvency of the life insurance company. The Company has calculated the nominal value of such future unpaid annuity installments as of December 31, 2012. That value, associated with approximately 170 annuities, is \$48.9 million.

In connection with the intercompany pooling agreement as amended in 2003 (see Note 26), the Company has ceded to LMC all its insurance liabilities, including any contingent liabilities for structured settlement annuities, and has transferred to LMC its rights in and to the 170 annuities owned by the Company. Therefore, the \$48.9 million of contingent exposure for structured settlement annuity liabilities is contingent on LMC as well as on the respective life companies. (See Note 14.)

B. The total value of annuities due from a life insurer in excess of 1% of the Company’s surplus is shown in the table below.

<sup>(1)</sup> All of the life insurance companies listed in the preceding table are rated A- or better by A.M. Best other than: Presidential Life Insurance Company (B++); Executive Life Insurance Company of New York (“ELNY”) and Aurora National Life Assurance Company are not rated.

NOTES TO FINANCIAL STATEMENTS

(2) ELNY was placed in receivership by the New York Liquidation Bureau (“NYLB”) in 1991 for purposes of rehabilitation and has continued to pay 100% of amounts due on all outstanding annuities since then. In December 2011, the NYLB filed a Petition for Order of Liquidation and Approval of Restructuring Agreement providing for the reorganization of ELNY’s liabilities in a newly formed entity. Based on information in the Petition, the NYLB asserts there are apparently now insufficient assets to satisfy ELNY annuity payees in full, and has now notified all individual ELNY structured settlement annuity payees and the owners of such annuities of the proposed ELNY liquidation and restructuring agreement, as well as the amount of an anticipated shortfall. The Company has now concluded for financial statement purposes that it is probable that it has incurred a liability for the anticipated shortfall. The assets of the newly formed entity will consist of a combination of existing ELNY assets and the contributions of the life–health guaranty associations. These assets will be used to fund the future unpaid installments of certain annuities, or “covered” annuities as referenced by the NYLB. The ELNY amount in the above table is the Company’s contingent liability for the “covered” annuities.

As further discussed in Note 26, the Company’s participation in the pooling agreement was changed from 8% to 0% effective December 31, 2003. Accordingly, the Company does not retain any net discounted loss or LAE reserves and cedes 100% of its premium, losses, and underwriting expenses to LMC.

NOTES TO FINANCIAL STATEMENTS

33. ASBESTOS/ENVIRONMENTAL RESERVES

The Company has gross exposure (zero net) to asbestos and environmental claims that arise principally from general liability insurance contracts.

The Company estimates the impact of these exposures by establishing case basis reserves on all known losses and LAE and by computing IBNR losses based on previous experience.

The asbestos related losses (including coverage dispute costs) for each of the five most recent calendar years are as follows:

ANNUAL STATEMENT FOR THE YEAR 2012 OF THE AMERICAN MANUFACTURERS MUTUAL INSURANCE COMPANY, IN REHABILITATION

GENERAL INTERROGATORIES
PART 2 - PROPERTY & CASUALTY INTERROGATORIES

6.1 What provision has this reporting entity made to protect itself from an excessive loss in the event of a catastrophe under a workers' compensation contract issued without limit of loss:.....
The Company is 100% reinsured by Lumbermens Mutual Casualty Company (LMC), which due to being in run-off, last purchased Worker's Compensation Catastrophe Excess of Loss reinsurance for the period ended October 1, 2004.....

6.2 Describe the method used to estimate this reporting entity's probable maximum insurance loss, and identify the type of insured exposures comprising that probable maximum loss, the locations of concentrations of those exposures and the external resources (such as consulting firms or computer software models), if any, used in the estimation process: .....
The Company's property exposures continued to rapidly decline throughout 2012 as a result of the run-off of the Company's exposures beginning in 2003. It was no longer necessary as of 2004 to estimate the nature and extent of the Company's probable maximum insurance loss and exposure concentrations.....

6.3 What provision has this reporting entity made (such as a catastrophic reinsurance program) to protect itself from an excessive loss arising from the types and concentrations of insured exposures comprising its probable maximum property insurance loss?.....
The Company is 100% reinsured by LMC; however, LMC elected to discontinue the purchase of property catastrophe excess of loss reinsurance upon expiration of the program at May 1, 2003.....

6.4 Does the reporting entity carry catastrophe reinsurance protection for at least one reinstatement, in an amount sufficient to cover its estimated probable maximum loss attributable to a single loss event or occurrence?..... Yes [ ] No [ X ]

6.5 If no, describe any arrangements or mechanisms employed by the reporting entity to supplement its catastrophe reinsurance program or to hedge its exposure to uninsured catastrophic loss.
The Company is 100% reinsured by LMC; however, due to LMC being well into run-off in 2012, there was no longer the necessity for per risk excess of loss reinsurance on either a risk attaching or facultative basis to protect against the risk of loss arising from single large loss occurrences.....

7.1 Has the reporting entity reinsured any risk with any other entity under a quota share reinsurance contract that includes a provision that would limit the reinsurer's losses below the stated quota share percentage (e.g., a deductible, a loss ratio corridor, a loss cap, an aggregate limit or any similar provisions)?..... Yes [ ] No [ X ]

7.2 If yes, indicate the number of reinsurance contracts containing such provisions.....

7.3 If yes, does the amount of reinsurance credit taken reflect the reduction in quota share coverage caused by any applicable limiting provision(s)?..... Yes [ ] No [ ]

8.1 Has this reporting entity reinsured any risk with any other entity and agreed to release such entity from liability, in whole or in part, from any loss that may occur on this risk, or portion thereof, reinsured?..... Yes [ ] No [ X ]

8.2 If yes, give full information.....

9.1 Has the reporting entity ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates) for which during the period covered by the statement: (i) it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; (ii) it accounted for that contract as reinsurance and not as a deposit; and (iii) the contract(s) contain one or more of the following features or other features that would have similar results:
(a) A contract term longer than two years and the contract is noncancellable by the reporting entity during the contract term;
(b) A limited or conditional cancellation provision under which cancellation triggers an obligation by the reporting entity, or an affiliate of the reporting entity, to enter into a new reinsurance contract with the reinsurer, or an affiliate of the reinsurer;
(c) Aggregate stop loss reinsurance coverage;
(d) A unilateral right by either party (or both parties) to commute the reinsurance contract, whether conditional or not, except for such provisions which are only triggered by a decline in the credit status of the other party;
(e) A provision permitting reporting of losses, or payment of losses, less frequently than on a quarterly basis (unless there is no activity during the period); or
(f) Payment schedule, accumulating retentions from multiple years or any features inherently designed to delay timing of the reimbursement to the ceding entity..... Yes [ ] No [ X ]

9.2 Has the reporting entity during the period covered by the statement ceded any risk under any reinsurance contract (or under multiple contracts with the same reinsurer or its affiliates), for which, during the period covered by the statement, it recorded a positive or negative underwriting result greater than 5% of prior year-end surplus as regards policyholders or it reported calendar year written premium ceded or year-end loss and loss expense reserves ceded greater than 5% of prior year-end surplus as regards policyholders; excluding cessions to approved pooling arrangements or to captive insurance companies that are directly or indirectly controlling, controlled by, or under common control with (i) one or more unaffiliated policyholders of the reporting entity, or (ii) an association of which one or more unaffiliated policyholders of the reporting entity is a member, where:
(a) The written premium ceded to the reinsurer by the reporting entity or its affiliates represents fifty percent (50%) or more of the entire direct and assumed premium written by the reinsurer based on its most recently available financial statement; or
(b) Twenty-five percent (25%) or more of the written premium ceded to the reinsurer has been retroceded back to the reporting entity or its affiliates in a separate reinsurance contract..... Yes [ ] No [ X ]

9.3 If yes to 9.1 or 9.2, please provide the following information in the Reinsurance Summary Supplemental Filing for General Interrogatory 9:
(a) The aggregate financial statement impact gross of all such ceded reinsurance contracts on the balance sheet and statement of income;
(b) A summary of the reinsurance contract terms and indicate whether it applies to the contracts meeting the criteria in 9.1 or 9.2; and
(c) A brief discussion of management's principle objectives in entering into the reinsurance contract including the economic purpose to be achieved.

9.4 Except for transactions meeting the requirements of paragraph 31 of SSAP No. 62R, Property and Casualty Reinsurance, has the reporting entity ceded any risk under any reinsurance contract (or multiple contracts with the same reinsurer or its affiliates) during the period covered by the financial statement, and either:
(a) Accounted for that contract as reinsurance (either prospective or retroactive) under statutory accounting principles ("SAP") and as a deposit under generally accepted accounting principles ("GAAP"); or
(b) Accounted for that contract as reinsurance under GAAP and as a deposit under SAP?..... Yes [ ] No [ X ]

9.5 If yes to 9.4, explain in the Reinsurance Summary Supplemental Filing for General Interrogatory 9 (Section D) why the contract(s) is treated differently for GAAP and SAP.

9.6 The reporting entity is exempt from the Reinsurance Attestation Supplement under one or more of the following criteria:
(a) The entity does not utilize reinsurance; or,
(b) The entity only engages in a 100% quota share contract with an affiliate and the affiliated or lead company has filed an attestation supplement; or
(c) The entity has no external cessions and only participates in an intercompany pool and the affiliated or lead company has filed an attestation supplement.
Yes [ ] No [ X ]
Yes [ X ] No [ ]
Yes [ ] No [ X ]

10. If the reporting entity has assumed risks from another entity, there should be charged on account of such reinsurances a reserve equal to that which the original entity would have been required to charge had it retained the risks. Has this been done?
Yes [ ] No [ ] N/A [X]
